Total sales of stocks were 195,100 shares, including the following: American Tobacco, 9,900; American Sugar, 48,000; Burlington & Quincy, 25,300; Chicago Gas, Rock Island, 6,100; St. Paul, 41,700; Western Union, 5,300.

The failure of Moore Brothers, of Chicago, was a complete surprise to Wall street, and was at first assumed to include the collapse of the Diamond Match Company, of Chicago, and the New York Biscuit Company, which had been promoted by at large to expect the most startling disclosures. It was feared that the New York city banks might be involved as holders of collaterals, and that also wholesale liquimight result. Lower London cables pre-vious to the opening also created an un-favorable impression. Accordingly there was a rush to sell at the sound of the geng on the Stock Exchange and during the first on the Stock Exchange, and during the first fifteen minutes the market was demoralized under liquidation, bear offerings and sales for foreign account. The situation was agvance in rates for money and commercial paper. In the time specified declines were dor, 60c; West Virginia lubricating, 20030c; the favorite objects of attack. Burlington | 60c per gal; in half-brls, 3c per gal extra. dropped 3%; Chicage Gas, 2%; Sugar, 216; Rock Island and Leather preferred, 2; Northwest, St. Paul and Tobaace preferred, 11%: Manhattan General Electric, Sugar preferred and Lead preferred, 11%: Louisville & Nashville, 13%, and other shares to a less extent. The selling pressure abated later, and sharp rallies occurred on a clearer understanding of the situation, a clearer understanding of the situation, Leading bankers were heard from to the perell, 10-4, 17c; Androsceggin, 9-4, 16c; Androsceggin, 10-4, 18c. Northwest, St. Paul and Tobaaco preferred, effect that the New York institutions were not involved, and Chicago dispatches were received reporting that measures had been taken to support the stock of the Diamond

be over within a comparatively short time. Nevertheless it was learned later that the New York banks had called loans in order to send money to Chicago. The result of this action, although the fact that it had been taken did not become public, was the withdrawal of offers of short-time funds and the marking up of rates to 6 per cent. for all periods. Call money was advanced to 31/2 per cent, as the maximum figure, with the bulk of the transactions; however, at 214663 per cent. A stiffening in commercial paper rates also took place, lower quotations than 61/2 per cent. for prime paper being the exception. The market became extremely dull at the recovery, owing to the continued depressing effect of the railroad rate disturbances, disappointing traffic returns and expectations of poor exhibits yet to be published. As the day progressed fractional variations either way occurred frequently as a result of trading operations. A further rise in actual and posted rates of sterling exchange failed to create a ripple. The rallies had extended to 2%c in Burlington. Around 1 o'clock the advance was checked, and under light offerings by the bears, together with realizing sales, prices reacted to near the initial low figures, St. Paul exceptionally declining to 65%c. Cleveland, Lorain & Wheeling preferred dropped 3 per cent to 37. Around delivery hour there was a general stiffening in prices, in which Sugar touched 1021/2, and

Match Company, and quoting prominent capitalists as saying that the trouble would

a sagging tendency. The sales were \$478,000. Cleveland & Canton firsts, trust receipts, dropped 11 per cent; Virginia Midlands, stamped, 7; Western Pacific firsts, 3, and Burlington sinking fund fives, 21/2; Illinois Central fours of 1952 and St. Louis Southwestern firsts, 2 per cent. Other important declines ranged up to 14 per cent.

Government bonds were duli but lower on sales of \$10,000. In silver certificates, 25c; Gilden Santos, 25c; prime Santos, 24c; pack-

Wheat and Corn Unchanged-Oats Meeting a Berrer Inquiry. The general air of quiet which has rested on

cient to awaken much interest. The one redeem-ing feature of the wholesale trade is the steadiness in prices. There is no prospect of quotations going lower, and dealers who are not dependent Upon sales to meet outstanding obligations are centent to wait for better times, believing their stocks will at some time not very far in the future be taken by consumers at better prices than now prevail. In country produce, fruits and vegetables there is no change, either in quitations or the general conditions On 'Change transactions are few and light, Wheat and corn yesterday showed so variation from the opening figures of the week, but there was a better inquiry for oats, which resulted in an advance of 5c in bids. BRYAN'S FATHER.

A Little Story Showing that He Was Not Quite a Saint.

Washington Letter in Chicago Post. Judge Silas Bryan, father of William Jennings Bryan, Democratic candidate for President, presided over a judicial circuit in Illinois for a dozen years. It was composed of Marion, Clinton, Washington, Jefferson, Wayne, Clay and Fayette counties. The Judge lived at Salem, the county-seat of Marion. Though a deeply religious man, a zealous Methodist, in fact, the story that he opened court with prayer is scouted by an old friend, who is responsible for the story which follows. That the Judge was an eccentric man all accounts agree, the lawyers saving he used to adjourn court Fridays to go home to set drah, plain, 1-32 brl, per 1,000, \$4.25; 1-16 brl, was a candidate more than once, but in \$6.50; 14-brl, \$10; 14-brl, \$20; No. 1 cream, plain, spite of the fact that the district was ususpite of the fact that the district was usually Democratic, he never could make the riffle. One time when he was running for Congress Tom Merritt was a candidate for State Senator and Jake Chance for county clerk. Word came to the Judge that there was something wrong with the Democrats down in Raccoon township of Marion county, the same being a Democratic stronghold. The Judge worried and sent Merritt there to find out what was the matter and arrange it. Merritt went, found everything solid as a rock for the straight ticket. but, being something of a war, thought he would have some fun with the Judge by representing that there was great dissatishumorist. He went to see the Judge as soon as he got back to town. The Judge anxiously inquired how matters were in Raccoon township.

Merritt was a stutterer as well as a "B-b-ad; a-a-awful-ul ba-ad," stuttered "But they are for you, are they not?"

inquired the Judge. "N-n-not on your life," said Tom "Why, what have they against you, Tom? "They s-s-say I swear and d-d-drink "There, there," said the Judge; "I've al-

ways told you, Tom, that you ought to abandon the abominable and immoral habit of swearing; that if you didn't it would be sure to lead you into trouble, and now see what it has done; too bad. But how about Jake Chance? They are for him, are "Not on your 1-1-life they ain't. They're dead s-s-sore on h-h-him."

"Well, what have they got against him?" asked the Judge, who was becoming more and more anxious as Tom poured out his budget of bad news. "They say he swears and spends too much m-m-money on the race track." "There it is again," commented the Judge austerely. "I've warned Jake as well as you. Tom, against the wretched and wicked habit of swearing and the injury it was bound to do you, but neither of you would heed my heartfelt warnings. What cannot be helped must be endured, I suppose," said the Judge resignedly. "Of course, these folks will all support me, Tom?"

"Not on y-y-your life they w-w-won't; they're dead sore on y-y-you." "Why, Tom, I am amazed at what you tell me. What can they possibly have

do anything but loaf and eat and slander their neighbors." A Latter-Day Othello.

BOARD OF TRADE DEALS

Wheat Was Weak Early, but Firmed Up and Closed with a Good Demand-Other Markets Steady.

CHICAGO, Aug. 4.-After a weak start, caused by the Diamond Match failure, wheat closed firm on a good demand for shipment at 58%c for September, against yesterday's close of 58%c. Corn closed %c higher, and provisions closed firm and

There was a moderate trade in wheat, principally local, with fluctuations covering ic. The feeling at the start was rather uncertain owing to the easier feeling in Wall street, and then the large local failure on the Stock Exchange was a factor, but the market, all things considered, held up fairly well. Initial trades were at 1@1%c loss, but rallied 1c, eased off a little, and closed with %c decline. The weather was most favorable, being hot and clearing in the winter wheat sections, which is just what is wanted to dry out the grain and put in condition for the thresher. Cables were up 1/4d, and then there was a decrease on ocean passage. Prospects favored very moderate world's shipments, and also added something to the price. The market opened weak with wheat and other speculative commodities owing to the complications in Diamond Match and New York Biscuit, but soon rallied, selling up 1c, and final figures showed 1/4 1/3c gain. Early offerings were quite readily absorbed. There was less than the usual interest in the dats market, and prices moved within %c range, and closed at about the top at unchanged prices. Trading was chiefly in September and May. A few traders had information that a private crop report, to be the condition of twenty points since last | Lima, 54c; Indiana, 54c. month. There was some buying on this, and it helped to strengthen the market. The matter that most concerned the pork men appeared to be whether or not there was a Canadian syndicate in control of the September deal. Many appeared to believe there was more truth than good news in it for the shorts, and the latter were depressed with an idea of danger ahead, for they bought September pork.
